## Application as wall-to-wall & stairway runner

For wall to wall installation we strongly recommend the use of an underlay.
For more information visit www.bomat.eu/en/application

## Maintenance

Regular vacuuming is indispensable for the maintenance of any kind of carpet. Prerequisite for a successful removal of stains is the identification of the stain type and the correct approach. The sooner a stain is treated, the easier it is to remove.
We advise you to use a professional carpet cleaning company.
